REMINDER/S:

Florida Civil Jury Instruction Section 504.9 requires plaintiffs to use "reasonable efforts or expenditures" to mitigate their own damages.

The duty to mitigate damages is a legal obligation that requires a party to take reasonable steps to reduce the harm they suffer from another party's actions. This duty applies in both torts and breaches of contract. If a party fails to mitigate damages, they may not be able to recover damages that could have been avoided. ^

While you are not required to take extraordinary measures to mitigate damages, you do have a duty to take reasonable measures to mitigate damages. For instance, if your roof or windows were damaged in a storm, you may need to put up tarps or seal openings to prevent further rain damage to your property. Dec 11, 2020

Due to the shingles being **so brittle** with such **granular loss** (reducing the ability for the Peel-N-Stick to “Stick”) these are Nailed Down to secure this temp-patch.
